

Measuring Tips

- For most accurate measurements, use a steel measuring tape.
- Round each measurement to the nearest 1/8".
- Always record width (left to right) first, and then height (top to bottom).

Single Sink Vanity Framed Mirror Measurement Guide

MEASURE the length of your countertop & the height between the countertop/backsplash and the bottom of the light fixture.

BRING your measurements, photos, & any fixture/cabinet/paint samples into one of our stores to create your framed mirror.
